[10/10/2011 7:09:40 PM] \*\*\* Call to {h}, no answer. \*\*\*

[7:09:27 AM] {D}: could here my parents in other room mom talking about getting ambulance mom started getting worse and worse wanted to see what was on my computer. Tries to claim her actions are innocent but I know Better! 2min  
[7:10:49 AM] {D}: So I already promised myself that which ever place is serving me better that is the hotel I stay at! 2min Everyone else picks the best price so wife started to look cheaper so I called her to pick me up.  
[7:11:04 AM] {D}: But this time had good plan  
[7:11:25 AM] {D}: Let me attach my instructions from last night.  
[7:11:54 AM] {D}: run audible at least two passes per room maybe more for large room and relocate yourself to make good coverage

I think Ideally you should consume a glass of dh before operation. reasoning you holding the laptop act as an acoustic soundboard and you become part of the instrument the clears the "bad air".

Musty closets and mildewed bathrooms could require longer and more frequent treatments.

use your common sense and your sense of musical ear.

The invisible sweep should be run as well and is not a substitute for the audible one and visa versa.

The audible one has longer duration on the human frequencies while the invisible covers sounds into ultrasound range.

This complements the dh as a healing factor accelerating healing by improving the environment the body flesh lives in.

It is also possible as just inspired that people suffering from slight loss of hearing by using dh and running program could regain full hearing and even notice results consciously while sound is running.

Actually I have noticed this on myself.

Brain tumors and learning disabilities and facial disorders would be healed more locally by placing sterilized quality headphones that cover ears completely and have full human range and run programs while applying doses of the paste massaging into scalp either pure or slightly diluted in a water solution.

Again the person should stand in the eye of the storm of the sound in the sweet spot where your soul is at rest and in the center of Gods will. Usually that is somewhere in the room and directly facing the laptop speaker output.

Do not get distracted you stop "babysitting" the laptop while it is performing its job.

Not concentrating on the eradication of the evil or leaving the sweet spot is less beneficial and takes away from the success and quality. You are not necessarily helping yourself by lets say ignoring it and letting run unattended.

I have also noted other benefits such as improved ability to manage your own weight.

I find my pants falling off me while the program is running!

Matter of fact by a few diet changes by living at parents for a while and putting together this solution I now almost look as I did when I was 26 or close to that Bocakeys logo picture. Now just got to firm up the flesh a little!

Since this ordeal and freeing my body from the dragons and now just went back to wifes home and exercised the entire house. I note now that the Brazilian tv which plagued my spirit is now appearing not harmful at all.

And the home feels more like I own it again.

And the manic panic feeling that I have to get out of here kuje there is a fire drill going on has subsided.

In addition floors and counters and clothing and towels and rugs need to be cleaned and disinfected.

Shaggy carpet etc that can never be cleaned well are suspect.

If you can afford to tile your home I recommend it.

When I arrived on the scene at home the whole neighborhood had this "muggy" feeling.

Now that I started "sweeping" the environment is already improving.

At the time of this writing, I have yet to do the ultrasonic program.

But I did run the two programs on my wifes head with headphones with her consent.

In addition I passed hydrogen peroxide on a rag and wiped all the floor tiles with foot on rag.

I stepped on some rugs and felt a consuming tingling and the ones by my bed I removed from the bedroom.

And this explains why sometimes both my legs would go numb. And I would drink cayenne pepper solution to allieviate this feeling.

[7:13:19 AM] {D}: in living room now did not run invisible sweeper thought while reviewing notes above

[7:20:00 AM] {D}: I am putting the Goldwave program in the same folder. It will have the filename gw552.zip.rename

[7:31:36 AM] {D}: You know like you say "My God Your Good!" well today I am really starting to believe it 2min I had created a motorcycle track from the sawtooth setting and thought I was just "playing around" but God said I am going to use that for something so You just Do It.

[7:32:31 AM] {D}: So just now at roommates I decided to dare to run the moto track. Well it turns out it creates the "muggy" air in the house that makes my ears stuffy etc.

[7:33:07 AM] {D}: And it just so happens in this neighborhood we have a lot of motorcycles that go in and out of the condo and drive down our main street.

[7:33:28 AM] {D}: So conclusion. motorcycle noise contributes to this disease.

[7:34:09 AM] {D}: And the cow girls project is designed to have people who ride motorcycles go ride all over the country. Very VERY interesting.

[7:34:40 AM] {D}: And the Lead cow girl who I work with is the one selling the Max product which seems to enhance the dragons.

[7:35:46 AM] {D}: So now that I have stained the carpet like in the commercials where they want to prove their product will remove any "spot"

[7:36:02 AM] {D}: And just ran the sweeper programs.

SkypeNotes\_Edition\_002.txt

[7:36:19 AM] {D}: And as they run I feel my ear "clear up"  
[7:36:50 AM] {D}: Very Interesting like the old german soldier from "Laugh In"  
[7:38:46 AM] {D}: So princess I am getting established on some kind of "rock" now.  
And it seems to be forming with several points of light. You The Herbs, The Sound,  
The Internet, Free True Love, etc.  
[7:40:19 AM] {D}: My God (as You say) that moto track is powerful. I am going to  
have to do a lot of sweeps now.  
[7:44:08 AM] {D}: Now that I think about it this siren effect similar to ambulances  
and police cars has probably helped to compensate for motorized noise pollution like  
motorcycles  
[7:45:17 AM] {D}: There is a deeper way than this rising in the world. There is a  
deeper way than this listen to me girl! - Sting ( from The Police )  
[7:46:04 AM] {D}: Finally clearing ran audible about 5 times now.  
[7:47:56 AM] {D}: Maybe we could set up this sonic healing in hospitals and clinics.  
Thoughts keep coming in from "I dont know where" 2min  
[7:49:01 AM] {D}: Love your picture. Cannot see you clearly but you look cure to me  
with your hands on your hips 2min  
[7:49:36 AM] {D}: It says to me "I mean business!" 2min  
[7:50:02 AM] {D}: "No fooling around here" ! etc 2min  
[7:50:30 AM] {D}: "No pulling the wool over my eyes or your gone!"  
[7:51:32 AM] {D}: "I am tired of BS and I wont put up with it from You or anyone!"  
10min  
[7:52:29 AM] {D}: Yeah like I said "Gotta Love that Photo" 20min  
[7:54:01 AM] {D}: I just tried another experiment.  
[7:55:01 AM] {D}: Leaving laptop running audible sweep I walked around the entire  
apartment and looked around for "dead" spots. As I did my ear cleared up more while  
passing through certain areas.  
[7:55:30 AM] {D}: So I thought about it in the Physics and Acoustic sense and it  
makes sense  
[7:56:43 AM] {D}: Me being the human sounding board. My movements around the house  
alter the sweet spots and where the signal travels and the phases and other  
characteristics  
[7:57:31 AM] {D}: well this must help to drive out the "spooks". I guess now we are  
ready to sell the next sequel to "Ghiostbusters" 2min  
[1:14:45 PM] \*\*\* Call to {h}, duration 01:39. \*\*\*  
[1:19:28 PM] {D}: Went to my dads friends house. He is a man with a walker and  
looks like 10000 mines hit him. But he is hanging in there. Actually amazingly he  
is starting to look better since I met him. He knows about the herbs but I feel  
resistance and I sense he feels he still cannot "afford" them. So I dont push this  
area. But he said he had a computer problem. Funny because sometimes he will say  
this just to get me to come over and then it turns out to be some simple problem and  
then I take the opportunity to install some of my programs for him.  
[1:20:16 PM] {D}: So I installed my email client because he did not like the way AOL  
changed their interface. I told him he would have to use online whatever the  
provider offers.  
[1:21:29 PM] {D}: So I installed some local email clients for him. Mozilla  
Thunderbird which I dont trust having the word "Zilla" in it. But I will use enemy  
tools to my advantage until I can create my own to the point they work better than  
anyone elses (in my opinion)  
[1:23:27 PM] {D}: And I configured my Email Client and got it to work. I showed it  
to him. And he seemed to be happy. I now have a little extra motivation to get  
that client more user friendly. Of course I will set you up with it too. You will  
find it "easy on the eyes" like the NeuViewer. Matter of fact the mail display IS  
NeuViewer.  
[1:25:16 PM] {D}: I was lying down on couch in Dads living room. I have this  
favority plush purple pillow and fell asleep My God ( I like using your style of  
talk sometimes, brings me joy 2min )  
[1:25:49 PM] {D}: I woke up so rested. And my dad was in his chair also sound  
asleep.  
[1:26:06 PM] {D}: And somebody got smart and had turned of the tv to give it a rest.  
[1:27:25 PM] {D}: But I laid down a little too long and some egg or something got in  
my ear the right one again. And then I remembered that that couch did not get  
completely disinfected since all this so I have to do that too.

SkypeNotes\_Edition\_002.txt

[1:27:46 PM] {D}: So off to the back room to increase DH and run the sound therapy.  
[1:29:46 PM] {D}: I ran it in headphones only. Then I called you. And it was almost comical. I had gotten some smaller jeans from home because the ones I had been wearing the past week were falling off me without a belt.  
[1:31:14 PM] {D}: These new jeans were fitting pretty comfortable. Then after sound therapy I got up from my day bed and the jeans felt loose like the old ones! Falling off me. So all of this is like the greatest tool to get back to your normal slim shape. ( I am avoiding using the word "di  
[1:31:18 PM] {D}: \_t  
[1:31:21 PM] {D}: "  
[1:31:53 PM] {D}: because it contains the word of the opposite of live.  
[1:34:06 PM] {D}: So I also now find that if headphones is not enough to purify you You Must run it ambient on the surrounding environment as well. And the 20 kilohz firewall has a multitude of applications. Helps when driving to maintain concentration and reduce manic driving activities. etc.  
[1:46:17 PM] {D}: Back from my molasses cookie. I know you are strictly against sugar. But I even think you might agree with me that a person who had control of their own body can sense a drop in sugar level and desire something sweet legitimately. Obviously one should go after a quality reward. Like your cappacino etc. I would just go after You because You Are So Sweet! 4min Love You!  
[1:46:35 PM] {D}: Oh and that thing about sugar acting as a yeast.  
[1:46:52 PM] {D}: In some ways we are all Pillsbury dough boys and girls  
[1:47:09 PM] {D}: and we do need some "yeast" to make the dough.  
[1:48:24 PM] {D}: Application 2. Internet surfing/communication or even for standard phones but I think we could eliminate standard phones completely at some point.  
[1:48:47 PM] {D}: Run the 20k firewall when starting computer and when Skyping etc. simple  
[1:58:12 PM] {D}: Oh wanted to tell you on voice. Chatted with some 40 year old. Learning I gotta protect myself. But you see this is Very good practice for me.  
[1:58:55 PM] {D}: She comes right out and asks me for my name age and location but that I understood because I had not filled that out yet in my profile.  
[1:59:58 PM] {D}: Well then she queries "So what is your reason/motive/purpose something like that for signing up.  
[2:00:26 PM] {D}: So I responded that it would be easier to just give her my Social Security Number ! 30min  
[2:00:58 PM] {D}: She didnt get that 60min  
[2:02:38 PM] {D}: So then I got philosophical/religious/spiritual and said some dazzling bs to the effect that I know God knows why I am here and I basically just follow him day by day because I have tried to go other ways many times and it always proves Not to be beneficial.  
[2:02:54 PM] {D}: Then she said hastily that "She had to go now" 2min  
[2:03:39 PM] {D}: So having Lots and Lots of FUN! 4min  
[2:04:37 PM] {D}: God told me a few hours ago that this social river we are tapping into is going to be our gold. Not eBay Not Google Not dealing with some advertising bastard etc.  
[2:07:22 PM] {D}: But lets not get too "cocky" with this attitude nor spread our intentions to far beyond this dialog window. I am not restricting your communications. But if you agree than it is mutual. We keep the most sensitive plans just between ourselves as much as possible. God has ways of leaking all this at the right time and those leaks will actually turn out beneficial and timed well.
