

# DALE NEUMANN

## The History

Born: 02/10/1966 1:01P Bethesda Hospital, Boynton Beach, FL, to Leopold and June. When I no longer needed the aid of the hospital, I moved to my parents' home on Camino Real in Boca Raton to remain as their only child (except for Hobe, the dog - my adopted sister from Hobe Sound - who was received (found) when I was three). A native Boca Ratonian, I grew up here, attended all the local schools: Alpha Montessori, Alexander D. Henderson, St. Andrew's HS (Class of '83), and Florida Atlantic University. I received a Bachelor of Science degree in Electrical Engineering in December of 1987. I started a Master's in Computer Science which led me to a co-operative education job at IBM shortly thereafter. I have been employed several times by IBM as a contractor. After two great years with a database company and three great years with an access control company, I remain with plans to continue working in the Boca vicinity. God is my pilot.

## My Personal Life

Back in 1991, I met my wife, Josie, at a club in Boca. I asked her to dance, and we have been "dancing" through life together ever since. My hobby is Music Composition.
