I am is what i am
You are what you are
You are also what i am
We are what we are

We are like a star
For this we go far
Sometimes there has been war

But its because
we fight over the same door

lets merge our mutual oar
excusive and forevermore

for it is you who i adore
love you shore to shore
see to shining see
and lips
from top to bottom

i have been called a cat
like one named tom

you are better than jerry

you will stay young

among

those like me

who intend to live

free

forever

and

ever

im in

are you ??
